

Legendary Australian artist John Olsen, in Melbourne for the opening of the Olsen Hotel in South Yarra today, dropped into *The Age* studio yesterday to create a one-off transitory artwork using light. Considered one of our greatest living painters, Olsen is the guest of honour at the launch of the \$90 million Art Series Hotel, which features more than 400 of his works. One work that won't be on display is this one, which he named *Frog and Lily Pond*.
